

PRESS RELEASE

# Coastal Construction selects COMPASS for trade partner prequalification

**TORONTO, ON – September 7, 2022** - Bespoke Metrics Inc. (Bespoke Metrics) is pleased to announce that the full-service contractor with headquarters in Miami, Florida, Coastal Construction Group, has selected COMPASS to assist in assessing and qualifying its trade partners.

COMPASS is Bespoke Metrics' pre-construction software suite that collects, centralizes, and analyzes trade data on behalf of general contractors across North America.

Operating in Florida since 1988, Coastal Construction Group employs approximately 400 people and has developed a distinguished roster of public and private clients. Coastal Construction Group has built its reputation on quality workmanship, workplace safety, and supporting local organizations and businesses through its philanthropic arm, Coastal Cares.

***"We're extremely excited to be partnering with a technology that not only enhances our current prequalification program, but one that also benefits our trade contractor partners themselves. COMPASS allows for the efficient submission and collection of prequalification related data between the General Contractor and Trades, freeing up time for both parties to be better spent servicing our projects."*** said Chris Robinson, Coastal Construction Group's Director of Risk Management

***"Coastal is a key partner for COMPASS and has an outstanding reputation of overseeing and building high quality projects in Florida. The addition of Coastal and our growing***
